

Designer, integrator & operator
of **mission-critical systems**

medium-sized company

✓ Two key areas of competence:
technical information systems and
customer business

✓ **The power to innovate** and offer solutions
to ensure the success of **strategic projects**

✓ Capacity to **engineer** and **integrate complex**
and **sensitive systems**

✓ **A fully integrated range of solutions:**
consultancy, design, development, integration,
maintenance and operational support

1800
employees

1440
in France

360 abroad:

- > Canada
- > Germany
- > India
- > Romania
- > USA

200 experts and consultants

An **agile** and **innovative**

Revenue:

170 million euros

**REVENUE
PER REGION:**

-  72% France
-  13% Europe
-  14% North America
-  1% Rest of the world

REVENUE PER SECTOR

-  45%
Defense & Security
-  27%
Aeronautics
-  16%
Space
-  12%
Energy & Industry

Experts at the cutting edge of **new technologies**

- **Active participation in competitiveness clusters** - System@tic, Ter@tec, Minalogic, Aerospace Valley, Mer & Sûreté Maritime, Pégase - **and in European research programs**
- A network of **200 technology** and **sector experts**
- Constantly updated state-of-the-art technology over **10% of revenue devoted to R&D**
- **A range of components and innovative products**
Command centers, tactical data links, cybersecurity, training systems, navigation systems, imagery & geo intelligence, crisis management & area surveillance

The trusted partner for managing **strategic projects**

- **AIRBUS:** avionics and on-board systems; aircraft documentation & PLM; cybersecurity
- **ANSSI:** cybersecurity
- **CEA:** Digital simulation; development & TMA of scientific codes
- **CNES:** ground segment & image processing
- **DCNS:** navigation systems, modeling & simulation systems
- **EDF:** industrial information system; application support on calculation codes & sector engineering projects
- **ESA:** ground segment & image processing
- **IRSN:** thermohydraulic engineering projects
- **MINISTRY OF DEFENSE:** Operations and command information systems; tactical data links; radio communication systems; cybersecurity; training systems
- **MINISTRY OF INTERIOR:** Information and command center; cybersecurity
- **PRATT & WHITNEY:** embedded systems
- **RATP:** passenger information systems
- **RENAULT:** aerodynamic & aeronautic simulation
- **TOTAL:** engineering projects (seismic & geomechanical)
- ...

Engineering and integration of secure infrastructures, software and mission-critical systems

Market offerings across 4 strategic sectors
4 multi-sector technological offerings

A range of innovative solutions and products

> COMMUNICATIONS & TACTICAL DATA LINKS

- CSOIP: voice communication system for air traffic control
- TACTX: simulation and multilink testing tool
- STARLINX: operational multilink system

> TRAINING & MAINTENANCE SUPPORT SYSTEM

- SOLSTICE: armed forces operational environment training system
- Virtual Maintenance Training
- IKATS: maintenance support solution

> DIGITAL SIMULATION

- ProLB: aerodynamic and acoustic simulation solution

> CYBERSECURITY

- PRELUDE: real time supervision of security events (SIEM)
- TRUSTYBOX: trust services for intangible exchange security

> CRISIS MANAGEMENT & AREA SURVEILLANCE

- CRIMSON: collaborative mission preparation and operational crisis management system
- STRADIVARIUS: long range HF maritime surveillance radar (over-the-horizon)
- MPWS: port surveillance C2
- GEOSTORM: geo-referenced service platform
- BOREADES: illegal drone detection and neutralization system

Customer closeness

Worldwide organization
of service centers

Targeted **international development**

CS, creating value for our clients

As **project manager** in charge of the design, integration and operation of **innovative high-performance systems**, CS works in the fields of **defense** and **security, space, aeronautics, energy** and **industry**, in France and internationally.

CS is a **trusted partner**; this is acknowledged by our key clients thanks to our capacity for innovation, our expertise, our commitment, and the quality service we provide.
